

IN THE SPECIFICATION:

The specification as amended below with replacement paragraphs shows added text with underlining and deleted text with ~~striketrough~~.

Please REPLACE paragraph [0072] on page 19 with the following amended paragraph:

[0072] In the above example of the mark-up document INDEX.XML, "ParentalLevel" that has been described above is used as a property for reading a currently set parental level, and ways to represent documents appropriate for their parental levels are written in the script language using simple if-sentences.
